

Squamish Hospital Foundation

The Squamish Hospital Foundation

COMMUNITY SUPPORT

What is the Squamish Hospital Foundation funding for in 2018?

The Squamish Hospital Foundation will be partnering with Vancouver Coastal Health to bring new **ultrasound technology** to the hospital. These new machines will increase the types of diagnostic imaging that can be done locally in Squamish – from pre-natal ultrasounds to echo-cardiograms.

The Foundation is looking to the community of Squamish to support the purchase of these machines and keep care local for all. We look forward to a successful year of fund raising.

WHAT DO WE DO?

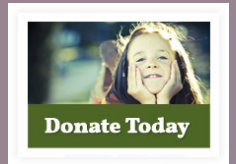

The Foundation works with Vancouver Coastal Health, Squamish General Hospital medical staff, and the community to identify equipment and special project needs not covered by the annual provincial or regional health budgets.

@squamishhospitalfoundation

HOW DONATION \$ IS SPENT

Some of the items YOU have helped purchase this past year

include:

Omni Cells **\$250,000.00**

Fetal Monitor & Cardiac Monitor **\$50,000.00**

Hospice **\$ 145,000.00**

Funding for SGH nurse training

MESSAGE FROM THE SHF PRESIDENT

Squamish is a growing community and with that growth comes changes in our health care needs. One thing that has not changed is the goal of the Squamish Hospital Foundation - to keep care local. As the community grows, the level of care available in the community is heightened and our Foundation and donors play a major role in that. Whether it is assisting in bringing a full time obstetrics and gynaecology practice to Squamish or helping establish a permanent hospice facility for the corridor, the Foundation is committed to keeping care local. I want to thank our donors and volunteers for allowing us to continuously striving towards that aim. We look forward to bringing new services and care to our community.

Alison Hopkins -Squamish Hospital Foundation President.

BIG SUCCESS!!

The Dr. Kindree Memorial golf tournament 2017- BIG SUCCESS!

Sponsored by One Ocean
Expeditions.

BABIES BEING BORN AT SGH

The Squamish Hospital Foundation Baby Wall program has been a huge success. The whimsical Babywall is dedicated to babies born at Squamish General Hospital. Installed in the maternity wing having a new babies name on a leaf is a wonderful gift to a new or growing family. Please see pamphlets at SGH, website or e mail for more information on how to donate to this program.

With the valuable help of our donors, we raise essential funds to advance patient care in the Sea to Sky Corridor.
